Subject: AFGHAN PILOT GHULAM MOHIUDDIN KHAN.

The above named Afghan pilot has, as you know, spent a considerable time off flying due to constipation. A report from the Senior Medical Officer is attached herewith, and after considerable discussion with his instructors and the Officer i/c Afghan Training, I agree that it is almost certainly a case of antipathy to flying. It is of interest to note in this connection that the complaint from which he suffers has definitely got worse now he is required to fly Hart type aircraft than it was when he was flying Moth aircraft in Delhi.

2. I have had a long talk with this Officer with a view to persuading him to volunteer to take up one of the other branches of training as a mechanic, but the combined persuasive powers of both myself and Captain Hazir Mahommed have failed to elicit anything except that either he would like to fly when he has been made well or alternatively he would like to be returned to Afghanistan. It will be realised that the first alternative is out of the question and it is therefore requested that action be taken to return him to his native country.

3. It should be added that he has shown very little interest in the ground part of his instruction and is by far the least advanced in his knowledge of English, principally I think due to lack of zeal.

Group Captain, Commanding,
Aircraft Depot, R.A.F., India.

4

From :- The Senior Medical Officer,
Aircraft Depot, R.A.F.,
Drigh Road, Sind.

REPORT ON OFFICER CADET GHULAM MOH'D KHAN.

The above named Officer Cadet has a persistent history of constipation; whilst at Delhi he was treated as an outpatient and also as a Hospital patient, and this condition has persisted at Drigh Road.

He was admitted to Indian Military Hospital, Karachi, but no cause for this constipation could be discovered and he was discharged.

The Cadet states that whilst he is constipated he does not feel keen to fly and it is considered that he is not a desirable type for further training as a Pilot.

It is considered the constipation is due to his antipathy to fly.

He shown no desire to overcome this disability and requires constant aperients in spite of dieting.

This Cadet has been Medically Boarded, and is therefore taken off flying duties.
